

## NEW PUMP TO ADD TO IRRIGATED ZONE

**Weiser Bench Irrigation Co.'s  
Project Will Increase Area  
25 Per Cent; 2500 Acres to  
Benefit by Venture.**

Weiser, March 27.—Twenty-five per cent will be added this year to the irrigated area directly tributary to Weiser through the work now being done by the Weiser Bench Irrigation company which is installing a big pumping station that will lift water 70 feet high for the irrigation of 2500 acres of land located directly northeast of the town of Weiser. One thousand acres of this land are owned by the Intermountain Institute of Weiser, 1000 acres is owned by the Butterfield Livestock company and 500 acres are owned by several individuals.

The water for the 2500 acre project will be pumped from the Galloway ditch which is the biggest irrigation canal in the immediate vicinity of Weiser. This canal is being enlarged to convey the additional amount of water required for the new project. S. M. French of Weiser, engineer in charge of enlarging the big ditch, has 75 men and 17 teams at work on the job. It is expected to have water running in the big ditch in about two weeks.

### FOUR BIG PUMPS.

A brick pumping station is being built at a point on the Galloway ditch immediately to the north of the town of Weiser. It will be 2000 feet in area and will be equipped with four large electrically driven centrifugal pumps. These pumps will lift the water 70 feet high through 1000 feet of 36-inch pipe. C. W. Luck of Weiser is the engineer in charge of the work on the 2500-acre project. The machinery for the pumping station is now enroute. The five miles of main ditch for the 2500 acres is already completed. Water for the new project will be delivered for this year's project will be delivered for this year's crops.

This project is of vital importance to the business interests of Weiser. There is no finer body of land, area considered, in southern Idaho.

### BIG PUMP FOR SUNNYSIDE.

The Sunnyside orchards of 1000 acres located on the bank of the Snake river three miles southeast of Weiser, will install another big electrically driven pump to pump water for the big orchard which this year promises to have a bumper crop of fruit. Other improvements of importance are being made in the Sunnyside district.

### STONEMAN GRADE CUT HALF.

A force of men and teams is at work reducing the present grade of 12 per cent over Stoneman's hill on the Oregon side two miles south of Weiser, to a six per cent grade. Ten thousand three hundred yards of dirt will be removed at a cost of \$5000. This road runs through the famous Dead Ox flat and is the short route from Weiser to Ontario and Vale. When this grade is completed Weiser's natural trade area in the Dead Ox flat will be enlarged by fully three more miles than the present area, due to the easy grade making it possible for farmers with loads of produce to come to Weiser, and in turn leaving Weiser for their homes with loads of lumber, machinery, etc.

### THE IDEAL WOMAN.

The great Napoleon once said: "My ideal woman is not the beautiful-featured society belle, whose physician tries in vain to keep her in repair, but the matron who reaches middle age in complete preservation,—that woman is rendered beautiful by perfect health." To attain such health in middle life a woman must guard against those ills which drag her down and produce nervousness, headache, backache, sleeplessness and "the blues." The standard remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been restoring women to health and strength.—Adv.

## NEW SECRETARY WELL KNOWN HERE

**Newspaper Man Appointed by  
Governor Reported Legisla-  
tive Session for Press Bureau**

Frank W. Brown, appointed secretary to Governor Davis, to succeed John Kirby White, who has been appointed a member of the governor's cabinet as commissioner of public welfare, is well known here, having reported the last session of the legislature for a number of Idaho newspapers. He will come to Boise to take up his new duties immediately.

The change in the secretaryship places a newspaper man in charge. Commissioner White held the position of pure food and state sanitary commissioner prior to his appointment as secretary. His promotion to a cabinet position places him in direct charge of work with which he has been familiar and merges a number of other departments under him. He succeeded to pure food commissioner after the resignation of James H. Wallis, and held through two years of Democratic administration, although a Republican.

Secretary Brown arrived in Idaho several years ago from Nebraska. He was in officers' training school in California when the militia was signed. It was largely through his efforts that the legalizing of boxing was made possible under the direction of a boxing commission.

### How is Your Digestion?

If you have trouble with your digestion you should adopt a diet suited to your age and occupation, eat slowly, masticate your food thoroughly. When constipated take Chamberlain's Tablets. They not only move the bowels but strengthen the digestion and create a healthy appetite. They are easy to take and most agreeable in effect.—Adv. T. H. S.

### SUFFERED FOR EIGHT YEARS.

Rheumatic pains, lame back, sore muscles and stiff joints most frequently can be traced to overworked weak or disordered kidneys. Daisy Eell, R. F. D. 3, Box 234, Savannah, Ga., writes: "I was suffering for eight years from pain in the back and could not do any of my work, but since I have taken Foley Kidney Pills, I can do all of my work." Foley Kidney Pills have given relief to thousands who suffered from kidney or bladder trouble. Try them. Whitehead's Drug store.—Adv. T. H. S.

### W. O. W.

The Roll Call meeting will be held Wednesday evening, March 26, and all our Neighbors in Ada County must be there, and our returned soldier members will be there. Refreshments. —Adv. M26

## In the Springtime

It's just at this time of the year that we need something taken from Nature to restore the vital forces.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found herbs and roots provided by Nature to overcome constipation,

and of these he selected Mayapple leaves of Aloe, root of Jalap, and from them made little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in our system and these are carried by the blood through your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a dose of castor oil, or something which is more pleasant, a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need,—right now.
